

Calculate the result for the following subtraction.

$16 + 60 = \square$

$85 - 60 = \square$

$4 + 90 = \square$

$66 - 60 = \square$

$20 - 10 = \square$

$98 - 80 = \square$

$16 + 40 = \square$

$44 + 50 = \square$

$51 + 40 = \square$

$95 - 20 = \square$

$84 + 10 = \square$

$16 + 70 = \square$

$81 - 60 = \square$

$66 + 30 = \square$

$57 - 50 = \square$

$65 - 50 = \square$

$6 + 30 = \square$

$24 - 20 = \square$

$60 + 30 = \square$

$16 + 60 = \square$
